Serrata Convection in Air Apparatus

Instructions for Cat. No: 1010038 - Convection in Air Apparatus

Cat no. 1010038 - AU\$29.50

air from the candle will produce Convection Currents, which will be dramatically visible because of the smoke produced by the paper.

An exceptional visual tool for demonstrating the nature of the convection process in Air.

It consist of a metal box 220 x 255 x 90 mm with a glass front and 2 plastic chimneys.

Usage:

A lighted candle is placed under one of the chimneys and a piece of paper producing smoke at the mouth of the other chimney. The hot
