Data Harvest Data Loggers

Data Logging is now established as the future of capturing information in all sciences in secondary schools as well as primary schools. It is important that the time is taken to purchase the right system that has been proven to have a large international market for continued support, a solid Australian supplier & easy to use, reliable software.

All government issue laptops are pre installed with the Data-Harvest Easy Sense software, Making Data-Harvest loggers the only working data logger with these laptops!

Data Harvest has won the BETT award multiple times for its products and continues to do so with the Vision data logger winning the 2011 BETT award for best digital device!

The aim of the award in this category is to reward the development of innovative and effective ICT hardware for learning and teaching in the primary, secondary and further education and skills sectors.

1113184 Vision Data Logger \$595.00

EasySense VISION completely replaces the standard PC & Logger or Interface combination - a huge cost saving! (it can still be used as both a remote data logger and with a PC when required)

Able to connect with a mouse/ keyboard/ memory stick via USB

Can connect with a screen or projector via the VGA port.

1113185 1 Link Data Logger \$88.00

Currently our most popular data logger for its cheap price and ability to work with student laptops.

1Link is an interface with a single sensor input, powered via the computers USB port.

1Link is capable of fast logging, timing with a single Light Gate and general-purpose data logging in all Science departments, when connected to a computer.

1113180 3 Link Data Logger \$298.00

3Link is an interface with 3 sensor inputs, powered via the computers USB port.

3Link is capable of fast logging, timing with Light Gates and general-purpose data logging in all Science departments, when connected to a computer.

1113181 Easy Sense Q Advanced \$498.00

is a very high specification data logger capable of fast logging, remote data logging or as a general-purpose interface to a PC.

The menu is intuitive for teachers and learners alike. Easy Sense Q Advanced is also a stand-alone timer, able to record and review time, speed and acceleration measurements.

Easy Sense Q Advanced is supplied with Easy Sense software and with a storage bag.

The Q Advanced also comes in a blue-tooth version for wireless use! (1113182)

When used away from the computer as a stand-alone data logger:

- Records data in Easy Log mode – 30 days plus
- Remote logging set up from the computer
- Remote logging set up from the menu
- Snapshot
- Meter display
- Fast logging – set up
- Pre-trigger option
- Full menu of Time, speed, acceleration options
- Multiple stored data sets
- Memory use indicator
- Data sets in memory can be named
- Battery power status displayed as hour and days

When connected to a computer:

- Real-time logging
- Real-time timing
- Real-time fast data capture
- Real-time snapshot
- Pre-trigger recording option

1113120 Easy Sense Q3+ Pack \$449.00

This robust, portable, remote data logger, with a screen display, has 3 built-in sensors: Sound, Light and Temperature with 2 plug-in sensor sockets. Connection to a computer is via USB.

The Q 3+ also comes in a blue-tooth version for wireless use! (1113123)

With an easy to use menu, and 2 sockets for the plug-in sensors, this clever box of tricks makes data logging child's play!

Included in the pack are:

- The Easy-sense Q3+ USB data logger*
- 25 on-screen Primary worksheets and teachers notes
- 2 x Temperature sensors (plug-in)
- 1 x mains power supply (to recharge the built-in battery)
- Soft storage bag
- FREE lifetime product support

*The data logger is supplied with 2 x long Sensor leads (3005), 1 x USB lead (3008), and the Easy Sense software (Full version, Site Licence)

1113124 Easy Sense Q5+ Pack \$495.00

This robust, portable, remote datalogger, with a screen display, has 5 built-in sensors: Sound, Light, Temperature, Humidity, Air pressure with 2 plug-in sensor sockets. Connection to a computer is via USB

The Q 5+ also comes in a blue-tooth version for wireless use! (1113130)

With an easy to use menu, and 2 sockets for the plug-in sensors, this clever box of tricks makes datalogging child's play!

Included in the pack are:

- The EasySense Q5+ USB datalogger*
- 25 On-screen Primary Worksheets and teachers notes
- 2 x Temperature sensors (plug-in)
- 1 x mains power supply (to recharge the built-in battery)
- Soft storage bag
- FREE lifetime product support
